By default, the name, phone number, and email address in the **Contact Information** section is populated based on the user who is logged in to the portal and creating the ticket. This information may be modified as needed.

5. In the **Access Information** section, check the **Any time** box.
6. From the **Service Issue** drop-down list, select **Service Request**.
7. In the **Short Description** field, provide a brief description of the request, for example, "Requesting additional 911 stickers".
